

Project Assignment for Project Management III Students

Project Title: Dance Performances in Mangaung Community

Objective:

To explore and document the different types of dances available in the Mangaung Community, conduct research on their histories, and discuss their cultural & community significance. Students will create a digital platform (**website or YouTube channel**) to showcase their findings and performances.

PROJECT COMPONENTS

1. Research Phase:

- Identify and select at least three different types of dances prevalent in the Mangaung Community. Examples may include traditional dances, contemporary styles, or unique local forms.
- Conduct research on the following aspects for each dance:
 - **Historical Background:** Trace the origins and evolution of the dance.
 - **Cultural Significance:** Discuss its role in the community, including ceremonies, celebrations, and social gatherings.
 - **Artistic Elements:** Explore the music, costumes, and choreography associated with the dance.
- Engage with community members, local dancers, or cultural organizations to gain insights and possibly conduct interviews.

2. Content Development:

- Develop a narrative that encapsulates the research findings.
- Collect multimedia elements (photos, videos, interviews) to enrich the content.
- Curate at least three to four dance performance videos from local artists or groups. Ensure proper permissions are obtained if necessary.

3. Digital Platform Creation:

- **Website or YouTube Channel:**
 - If creating a website, use platforms like WordPress, Wix, or Squarespace:
 - Include sections for each type of dance, historical context, and cultural significance.
 - Use engaging visuals, including photos and embedded videos.
 - If creating a YouTube channel, focus on:
 - Uploading performance videos along with explanatory content.
 - Adding descriptive video titles and engaging descriptions.
 - Encouraging community interaction through comments and discussions.
- Ensure a user-friendly interface and accessibility features.

4. Presentation:

- Prepare a presentation summarising your research and findings.
- Highlight key discoveries and showcase a teaser of the dance performances.
- Present the website or YouTube channel to the class for feedback.

PROJECT REQUIREMENTS

1. Initiation Phase: Develop a Project Charter, Stakeholder Register, Problem Statement, Objectives, and High-Level Scope.
2. Planning Phase: Develop a WBS, MS Project Gantt Chart, Budget, Risk Register (minimum 5 risks), Communication Plan, Quality Plan, Procurement Plan, and RACI Matrix.
3. Execution Phase: Engage at least two real stakeholders in Bloemfontein and collect multimedia content (photos, interviews, short videos).
4. Digital Platform Creation: Develop either a Website (Wix/WordPress/Google Sites) or a YouTube Channel with structured content, branding, and accessibility features.
5. Monitoring & Control: Submit two progress reports, updated Gantt Chart, and evidence of risk mitigation and scope control.
6. Closing Phase: Submit final report, lessons learned, team reflection, and stakeholder engagement evidence.

Group Requirements

6–8 students per group

Clear role allocation:

- Project Manager
- Risk Manager
- Communications Officer
- Financial Controller
- Content Director
- Technical Lead

Each group will:

- Present for 15–20 minutes
- Demonstrate digital platform
- Show MS Project timeline
- Discuss challenges and mitigation strategies
- Showcase a 2-minute highlight reel

Final Notes:

Students are encouraged to collaborate effectively, distribute tasks according to individual strengths, and maintain open communication throughout the project (**6 – 8 in a group**). This assignment aims to foster a deeper understanding of the cultural dynamics within the Mangaung Community while developing project management skills.

Due Date: 24 April 2026 : 6PM

Good luck and have fun!
